

HOOD  
LEFT EAR

LUTE

BELL

HEAD

RIGHT EAR

BASE

Tilo

Ghost  
of a  
Tale

## Required Tools

Craft Knife  
Extra-strength glue stick  
Ruler/steel edge  
Tweezers  
Cutting board

## Assembly Instructions

1. Using a scalpel or craft knife and ruler, carefully cut out each piece of the pattern.
2. Score each fold using the back of the blade or the handle of a spoon.
3. Crease each fold, as directed by the pattern.
  - a. Dotted and dashed lines indicate 'valley' folds. Valley folds fold 'out of' the pattern.
  - b. Dashed lines indicate 'ridge' folds. Ridge folds fold 'into' the pattern.
4. Apply a small dab of glue to each tab, and then fold the piece to achieve its correct form.
5. Use your tweezers to pinch each tab closed, and hold for a short while to allow the adhesive to dry.
6. Reapply glue as required during assembly.
7. Connect each piece together to complete the figurine.

## Order of Assembly

### Head, arms and legs

1. Assemble the head, legs and arms first.
2. Start assembly at the upper part of the limb and work your way down to the hands and feet.
3. Don't glue down the sole of the foot until you have assembled the rest of Tilo, and are ready to put him on his base stand.

### Torso

1. Begin assembly of the torso at Tilo's waist, and work down.
2. Attach his legs to the body, before assembling Tilo's upper body.
3. Glue on Tilo's arms, and then lastly his head.

### Base and accessories

1. Assemble his accessories (The lute, bell and lantern) and base.
2. Assemble the sides and top of the stand, leaving the base open
3. Fold and assemble the 'stand bracing', then insert into the stand.
